# The great rescue of poor animals”

Hi! My name is Finka and I'm a golden retriever. I'm quite big and my fur is cream-coloured. I'm characterized by having a lot of physical energy. I love people and I'm keen on playing with them. Today I want to tell you a story about a few students from one of the Polish schools. They have helped me and another dogs from the kennels.

Before I got there I was wandering in a city. I was homeless because my owner had thrown me away on the street.

One day I saw five girls who were going back from school. I heard that they were talking about the fundraising for the dogs in the local kennels.

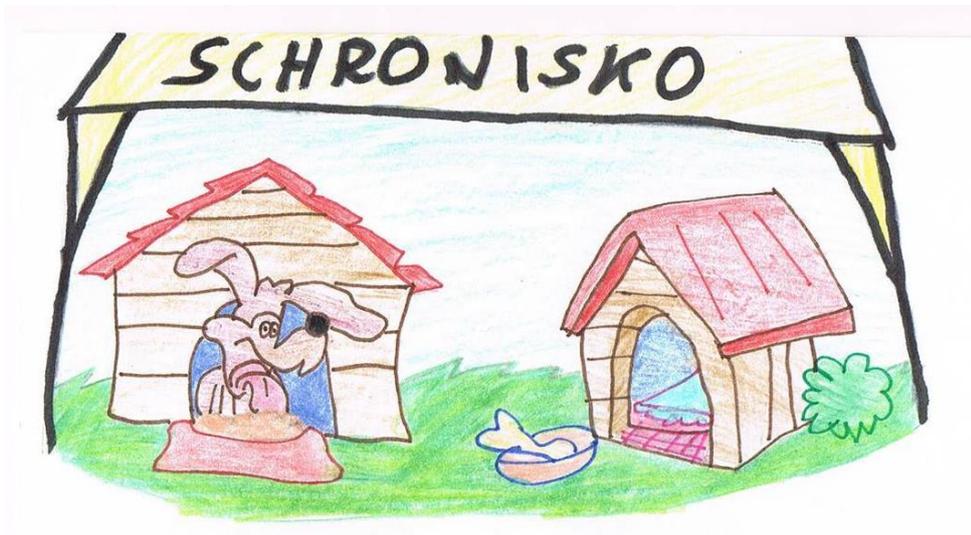

I decided to learn more about it. I was following them and listening what they are talking about.

I found out that they had organized a fundraising and a collection of food for animals. Then another four girls joined the group.

Thereafter the group organized a few ecological patrols and interviews with the dog owners. A few days later I got to the kennels.

I really wanted to know what will be the next thing that girls are going to do for the dogs in this kennels.

The next day my wish came true. I saw them while they were going with lots of cans with dog food. Magda, Marlena, Marysia, Renata, Oliwia, Zosia, Zuzia and Amelka helped us a lot. All of the dogs were very happy that in our city live so many people who help helpless dogs!
